Clear indication quickly identifies assembly order and eliminates errors. Mobile assembly stations can be fitted with an R70 Serial Data Radio and Modbus-enabled Pick-to-Light devices for an effortless wireless connection to a central gateway or machine for remote assembly guidance solutions.

SNAP **SIGNAL**

Solution to the Machine

Qty	Model	Description
2	R70SR*MQ	Serial Data Radio
2	PSW-24-1	Power Supply
6	PTL110S-FF100TD3-QP150	Pick to Light Sensor
1	MQDEC3-506SS	Extension Cable
2	LMB30LP	Low Profile Serial Radio Mounting Bracket

NOTE: Replace * with 2 for 2.4 GHz model or 9 for 900 MHz model

Solution to DXM

Qty	Model	Description
1	DXM1200-B1	Industrial Controller
2	R70SR*MQ	Serial Data Radio
2	PSW-24-1	Power Supply
6	PTL110S-FF100TD3-QP150	Pick to Light Sensor
1	MQDEC3-506SS	Extension Cable
2	LMB30LP	Low Profile Serial Radio Mounting Bracket

NOTE: Replace * with 2 for 2.4 GHz model or 9 for 900 MHz model
