

## Features

Banner's TL70 Basic Tower Light is a 70 mm, modular LED indicator with bright and uniform light. The modularity gives the user flexibility to customize tower lights as needed and change positions in the field. The TL70 is also available preassembled for easy installation.

- Light segments have user-selectable solid ON or flashing
- Up to five indicator segments, or four indicator segments plus audible, in one device
- Rugged, water-resistant IP65 housing with UV-stabilized material
- Bright, uniform indicator segments appear gray when off to eliminate false indication from ambient light
- Simple and fast connection with M12 quick-disconnect connector

## Models

Select the 5-pin base for tower light configurations of up to 4 modules. Select the 8-pin base for tower light configurations of up to 5 modules.

- Example base model number: B-TL70B-Q5
- Example light segment model number: SG-TL70B-G
- Example audible segment model number: SG-TL70B-A
